

Hosp. No.
3235657

NHIS No:
NHIS-205

UNIVERSITY OF LAGOS
MEDICAL CENTRE
URINALYSIS

Lab No
LAB-102030

Surname:

Onibon

Other Names

Yetunde

Age:

21

Sex:

F

Staff/Student

Student

Telephone (GSM)

Telephone (Office)

Clinician Dr. Kenneth Patric

Clinical Summary and Diagnosis

Possible urinary tract infection (UTI) due to presence of nitrites and leukocytes.
Recommend further culture and sensitivity testing.

Material

Midstream urine sample

Ward/Dept

General Medicine, Ward 4B

Date of Request: 08/09/2024

Signature of Doctor:

Reports (For Laboratory Use Only)

Colour and Appearance Straw yellow, clear

Nitrite: Positive

Reaction (Ph) 5.5

Specific Gravity: 1.020

Protein: Trace

Ascorbic Acid: Negative

Reducing Substances (Sugar) Negative

Billirubin: Negative

Ketone Bodies: Negative

Urobilinogen: Normal (0.2 mg/dL)

Blood: Negative

MICROSCOPY:

Epithelial Cells: Moderate (5-10/hpf) Pus Cells/HPF: 20-25/hpf RBCs/hpf 0-2/hpf

Bacteria: Moderate Crystals: None observed Casts: None observed

Yeasts Cells Negative Trichomonas Vaginalis: Negative

S.Haematobium: Negative Amorphous Debris: Mild

Spermatozoa: Negative Amorphous Crystals: Few

Sample Collected by Ayena J.
